

COALESCE Research Fund 2025

Programme Name	COALESCE 2025
Project ID	The OLS will generate this ID
Application Deadline	05/12/2024
Irish Research Body	

Indicative Application Form

All applications must be submitted via the Online Application System (OLS) SmartSimple

Late applications will not be accepted.

Application details

Application type: Research for Policy and Society

Status:

Create date:

Application deadline:

Project ID:

* **Project title:**
100 words left

**Irish research
body:**

English translation: (upload file)

Print form: (print PDF)

Applicant Details*

Name	
Date of Birth	
Gender with which the applicant identifies	
Postcode	
What is your nationality, i.e. your passport-issuing country?	
ORCID identifier	

The above fields in the **Applicant Details** section are populated based on your personal profile. If you would like to update this section, please click **Save Draft** and navigate back to the **Home** screen where you can find the **Manage Your Profile** icon.

Do you currently hold a Taighde Éireann - Research Ireland Award (formerly Irish Research Council Award)?

Note: applicants in receipt of Taighde Éireann - Research Ireland funding (formerly IRC funding) at the project start date will be ineligible, with the exception of a New Foundations grant and/or Ulysses award.

Yes/No

If yes, please provide further details including the project end date

Were you previously a recipient of the Taighde Éireann - Research Ireland (formerly IRC) Research Development Initiative, Collaborative Research Project, Research Project Grant funding, or COALESCE?

*Yes/No

If yes, Please provide further details _____

Is this a resubmission of an unsuccessful application to COALESCE?

*Yes/No

If yes, please provide a short description of how the application has changed.

300 words

*** Are you an academic or researcher who, on the call deadline, holds a contract of sufficient duration with a Higher Education Institution or a recognised Research Performing Organisation (as defined in the 2025 Call Document) to carry out the proposed research from the project start date in Q3 2025 until the project end date?**

*Yes/No

Strand 2A Only: Is the identified co-PI on strand 2A a STEM academic or researcher who, on the call deadline, holds a contract of sufficient duration with a Higher Education Institution or a recognised Research Performing Organisation (as defined in the 2025 Call Document) to carry out the proposed research from the project start until the project end date?

Yes/No

Strand 2A and 2B Only: Does any identified co-PI, academic or researcher, on the call deadline, hold a contract of sufficient duration with a Higher Education Institution or a recognised Research Performing Organisation (as defined in the 2025 Call Document) to carry out the proposed research from the project start date until the project end date?

Yes/No

Strand 2B Only: Are you an academic or researcher who has at least five years' experience as a PI, experience of collaboration with research consortia with an international focus and/or international research development projects and who has a track record in research under one or more of the DFA themes for this strand? Note: if the applicant is 3 years post-PhD and has been awarded a New Foundations grant under Strand 4, funded by the DFA, the applicant will be eligible. Applicants who are eligible under the latter caveat will need to demonstrate in their application that they have the skills and experience to manage a project of this scale.

Yes/No

Please identify your employment status:

Permanent	
Indefinite duration	
Fixed term contract	
Not currently employed	

Strand 2B Only: Is the co-PI an academic or researcher who has at least three years' experience as a PI, experience of collaboration with research consortia with an international development focus and/or international research development projects and who has a track record in research under one or more of the DFA themes for this strand?

Yes/No

Strand 1M Only: Are you an academic or researcher who has at least five years' experience with a track record in research pertinent to DSGBV and relevant to achieving objectives of *Zero Tolerance: The Third National Strategy on Domestic, Sexual and Gender Based Violence*? Note: if the applicant is 3 years post-PhD and has been awarded a New Foundations grant, the applicant will be eligible. Applicants who are eligible under the latter caveat will need to demonstrate in their application that they have the skills and experience to manage a project of this scale.

Yes/No

PhD Status

Please specify your PhD graduation date.

Note 1: As per the 2025 Call Document, applicants must hold a doctoral degree which was awarded **no later than 31st May 2023 for applicants to Strand 2A**, and **no later than 31st May 2019 for applicants to Strand 2B and Strand 1M**.

Note 2: For **Strand 2B**, if the applicant is 3 years post-PhD and has won a New Foundations grant under Strand 4, funded by the DFA, the applicant will be eligible. Applicants who are eligible under the latter caveat will need to demonstrate that they have the skills and experience to manage a project of this scale.

Note 3: For **Strand 1M**, if the applicant is 3 years post-PhD and has won a New Foundations grant, the applicant will be eligible. Applicants who are eligible under the latter caveat will need to demonstrate that they have the skills and experience to manage a project of this scale.

For the purposes of this condition, a certified copy of the PhD graduation certificate will be taken into account and will be required upon conditional offer of award.

If you have not yet graduated, YOU MUST have all the requirements for the award of a doctoral degree, including the submission of the hardbound corrected thesis within the required timeline. Please indicate the year of submission below.

PhD graduation date (indicate date)

XX/XX/XXX

With respect to the earliest award (PhD or equivalent), do you require an extension to the eligibility window? Please see the Call Document for more information about eligible career breaks.

Yes/No

***Have you informed the Research Office in the (proposed) host institution of your intention to submit an application to the COALESCE Programme?**

*Applicants must inform the Research Office of their intent to submit an application to this programme.

Yes/No

*** Select if you comply with ALL of the above eligibility requirements**

I Agree

Project Details

*Please select the appropriate funding strand for which you are applying:

Strand 1M	DSGBV Research Awards 2025	Funded by Cuan
Strand 2A	Open call for interdisciplinary research addressing national or global societal challenges led by AHSS PI with STEM co-PI	Funded by Taighde Éireann - Research Ireland
Strand 2B	Department of Foreign Affairs Research Award: Better Worlds Award	Funded by DFA

Award duration

Proposed award duration in number of months:

Please consult Annex A and Annex B on our [website](#) for a description of what is covered in Primary Areas, Disciplines and Other Research Areas

Project Title

* Please select the appropriate funding strand for which you are applying

Strand 1M

* Proposed award duration in number of months

Other Research Area	

***Keywords** describing proposed research (<10 words)

***Abstract.** Please provide a short description of the proposed research project. Please note that the abstract will be shared with potential reviewers.

300 words

***Lay Abstract.** Please provide a short description of the proposed research project which will be used to inform a non-expert reader.

300 words

***For previous COALESCE award holders only:** Is this application a follow-on project from your previous COALESCE award and, if so, how is the application distinct from the previous project?

200 words

***Outline how the proposal meets the thematic requirements of the strand?**

200 words

***Identify any project partners**

500 words

- **For strand 1M and 2B only**, outline the added value collaboration with the Strategic Funding Partner for this strand will bring to the project and the associated policy area.
- **For strand 2A**, outline of the value that collaboration with the STEM Co-PI on this strand will bring to the project.

200 words

Detailed Project Description for all strands

To be uploaded as one single PDF document (**strictly maximum 18 pages, with two pages at a minimum to be dedicated to methods and analysis.**)

Detailed Research Proposal:

The research proposal must provide a detailed description of the scholarly, scientific and/or technical aspects of the proposal, demonstrating the originality and novelty of the research, the proposed research methodology (including key risk and contingency plans) and its potential impact. Outline the alignment of the proposed research with the specific funding strand for which you are applying. The proposal must include a detailed budget justification. Explicit and clear justification should be provided for each budget category. References count towards the page limit. The research proposal should include the following:

Aims and objectives:

- Clearly specify the objectives of the proposal; it should be indicated how and why the proposed work is important for the field, and what impact it will have if successful, such as how it may open up new research horizons or opportunities.
- Specify any particularly challenging or unconventional aspects of the proposal, including multi- or inter-disciplinary aspects.

Methodology:

- Describe the proposed methodology in detail, including as appropriate, key intermediate goals.

- Explain and justify the methodology in relation to the state-of -the-art, including any particularly novel or unconventional aspects addressing 'high-risk/high-gain' balance.
- Highlight any intermediate stages where results may require adjustments to the project planning.

CV – 2 pages max:

- The CV should include the standard academic and research record including current funding awards.
- Applicants should comment on any actual or apparent overlaps with current funding awards to demonstrate that, if successful, there will be no double funding in respect of the same activities.

Track Record

- Applicant(s)' research and other expertise relevant to the project proposal.
- Research achievements including current and previous research awards.
- Key Outputs including Publications (e.g. published reports, creation of data sets and databases, exhibitions, etc.)
- Evidence of previous evidence-based policy research.

Outputs and Impact

- Outline the potential outputs and impacts of the proposed research. Outputs are identified as the planned activities based on the allocation of resources. Outcomes are the anticipated short-term results of the research project and its outputs. Impact is defined as how research benefits society and may occur in the shorter or longer term. Please see The Campus Engage guide 'Engaged Research Planning for Impact', here:

https://www.campusengage.ie/wp-content/uploads/2022/03/Updated-Final-PBS10581-IUA-Engaged-Research-Planning-for-Impact-Framework-2022-Update_V5.pdf

- The potential impact of the proposed research project on the individual/team/research programme, including the potential for further research activity, the alignment with identified SDGs and the Institutional/organisational research and teaching strategy. The possible impact on the teaching programme, including courses taught and students supervised or the potential impact on the development of capability in the Host Organisation.
- Plans for dissemination and knowledge exchange activities. In particular, the direct outputs envisaged, evidence of collaboration and impact on policy in the relevant area.
- The potential broader societal impact of the proposed research.

***Detailed Project Description Upload**

***List of Research Projects which the Principal Investigator is currently involved in or has responsibility for (including details of the project title, the source of award, the funding amount and the award duration).**

300 words

***Has a Steering Group or Advisory Committee for this project been identified?**

Yes/No

If Yes - Please provide details; If no - Are there plans to develop a Steering Group or Advisory Committee? Please provide details.

300 words

***Research Schedule (including a detailed timetable for the project commencement, and a plan for the efficient management and reporting of the research project).**

500 words

You may upload a GANTT chart to illustrate the project timelines, milestones and deliverables. **The system will only accept a PDF file for upload.**

Data Management Plan

500 words

Please provide details of the following:

- What standards will be applied?
- How will data be exploited and/or shared/made accessible for verification and reuse?
If data cannot be made available, why?
- How will data be curated and preserved?
- If applicable, how do you plan to make the research data FAIR (findable, accessible, interoperable and reusable). Applicants should be cognisant of the General Data Protection Regulations (GDPR) and any other national guidelines that may be applicable in your jurisdiction. Funded proposals should meet the required standards in this regard.

STRAND 2A

* Proposed award duration in number of months

Please consult Annex A and Annex B on our [website](#) for a description of what is covered in Primary Areas, Disciplines and Other Research Areas:

*Primary Area	
*Discipline	
Other Research Area	

***Keywords** describing proposed research (<10 words)

***Abstract.** Please provide a short description of the proposed research project. Please note that the abstract will be shared with potential reviewers.

300 words

***Lay Abstract.** Please provide a short description of the proposed research project which will be used to inform a non-expert audience.

300 words

***For previous COALESCE award holders only:** Is this application a follow-on project from your previous COALESCE award and, if so, how is the application distinct from the previous project?

200 words

***Outline how the proposal meets the thematic requirements of the strand?**

200 words

*** Identify any project partners**

500 words

- **For strand 1M and 2B only**, outline the added value collaboration with the Strategic Funding Partner for this strand will bring to the project and the associated policy area.
- **For strand 2A only**, outline of the value that collaboration with the STEM Co-PI on this strand will bring to the project.

200 words

*** Name the co-PI**

Note: The lead PI on strand 2A (AHSS PI) will be housed in the host institution. The host institution will take full responsibility for award management, reporting and administration.

Strand 2A allows the participation of a co-PI at a second eligible HEI/RPO. Where relevant identify the eligible partner institution.

Note: The lead PI on strand 2A (AHSS PI) will be based at the host institution. The host institution will take full responsibility for award management, reporting and administration.

*** Identify the STEM research area involved in the project**

Please consult Annex B for a description of primary areas and disciplines.

Discipline:

*** Indicate which Sustainable Development Goals (SDGs) will be addressed in the proposed project**

Consult the Call document for details of SDGs

No poverty
Zero hunger
Good health and well being
Quality education
Gender equality
Clean water and sanitation
Affordable and clean energy
Decent work and economic growth
Industry, innovation, and infrastructure
Reduced inequalities
Sustainable cities and communities

Responsible consumption and production
Climate action
Life below water
Life on land
Peace, justice, and strong institutions
Partnerships for the goals

Detailed Project Description for all strands

To be uploaded as one single PDF document (**strictly maximum 18 pages, with two pages at a minimum to be dedicated to methods and analysis.**)

Detailed Research Proposal:

The research proposal must provide a detailed description of the scholarly, scientific and/or technical aspects of the proposal, demonstrating the originality and novelty of the research, the proposed research methodology (including key risk and contingency plans) and its potential impact. Outline the alignment of the proposed research with the specific funding strand for which you are applying. The proposal must include a detailed budget justification. Explicit and clear justification should be provided for each budget category. References count towards the page limit. The research proposal should include the following:

Aims and objectives:

- Clearly specify the objectives of the proposal; it should be indicated how and why the proposed work is important for the field, and what impact it will have if successful, such as how it may open up new research horizons or opportunities.
- Specify any particularly challenging or unconventional aspects of the proposal, including multi- or inter-disciplinary aspects.

Methodology:

- Describe the proposed methodology in detail, including as appropriate, key intermediate goals.
- Explain and justify the methodology in relation to the state-of -the-art, including any particularly novel or unconventional aspects addressing 'high-risk/high-gain' balance.
- Highlight any intermediate stages where results may require adjustments to the project planning.

CV – 2 pages max:

- The CV should include the standard academic and research record including current funding awards.
- Applicants should comment on any actual or apparent overlaps with current funding awards to demonstrate that, if successful, there will be no double funding in respect of the same activities.

Track Record

- Applicant(s)' research and other expertise relevant to the project proposal.
- Research achievements including current and previous research awards.
- Key Outputs including Publications (e.g. published reports, creation of data sets and databases, exhibitions, etc.)
- Evidence of previous evidence-based policy research.

Outputs and Impact

- Outline the potential outputs and impacts of the proposed research. Outputs are identified as the planned activities based on the allocation of resources. Outcomes are the anticipated short-term results of the research project and its outputs. Impact is defined as how research benefits society and may occur in the shorter or longer term. Please see The Campus Engage guide 'Engaged Research Planning for Impact', here:

https://www.campusengage.ie/wp-content/uploads/2022/03/Updated-Final-PBS10581-IUA-Engaged-Research-Planning-for-Impact-Framework-2022-Update_V5.pdf

- The potential impact of the proposed research project on the individual/team/research programme, including the potential for further research activity, the alignment with identified SDGs and the Institutional/organisational research and teaching strategy. The possible impact on the teaching programme, including courses taught and students supervised or the potential impact on the development of capability in the Host Organisation.
- Plans for dissemination and knowledge exchange activities. In particular, the direct outputs envisaged, evidence of collaboration and impact on policy in the relevant area.
- The potential broader societal impact of the proposed research.

***Detailed Project Description Upload**

***List of Research Projects which the Principal Investigator is currently involved in or has responsibility for (including details of the project title, the source of award, the funding amount and the award duration).**

300 words

***Has a Steering Group or Advisory Committee for this project been identified?**

Yes/No

If Yes - Please provide details; If no - Are there plans to develop a Steering Group or Advisory Committee? Please provide details.

300 words

***Research Schedule (including a detailed timetable for the project commencement, and a plan for the efficient management and reporting of the research project).**

500 words

You may upload a GANTT chart to illustrate the project timelines, milestones and deliverables. **The system will only accept a PDF file for upload.**

Strand 2A and 2B only: The PI is required to upload a statement (1 page PDF) outlining their track record (if any) in collaborating with the co-PI, together with a case for why the two parties are a good fit for the proposed project.

Data Management Plan

500 words

Please provide details of the following:

- What standards will be applied?
- How will data be exploited and/or shared/made accessible for verification and reuse?
If data cannot be made available, why?
- How will data be curated and preserved?
- If applicable, how do you plan to make the research data FAIR (findable, accessible, interoperable and reusable). Applicants should be cognisant of the General Data Protection Regulations (GDPR) and any other national guidelines that may be applicable in your jurisdiction. Funded proposals should meet the required standards in this regard.

Strand 2B

Climate action
Life below water
Life on land
Peace, justice, and strong institutions
Partnerships for the goals

* Identify the co-PI

* Identify the partner country

* Identify the HEI/RPO in the partner country

* Please provide a short outline of the value collaboration with the identified partner country will bring to the project (200 words)

Detailed Project Description for all strands

To be uploaded as one single PDF document (**strictly maximum 18 pages, with two pages at a minimum to be dedicated to methods and analysis.**)

Detailed Research Proposal:

The research proposal must provide a detailed description of the scholarly, scientific and/or technical aspects of the proposal, demonstrating the originality and novelty of the research, the proposed research methodology (including key risk and contingency plans) and its potential impact. Outline the alignment of the proposed research with the specific funding strand for which you are applying. The proposal must include a detailed budget justification. Explicit and clear justification should be provided for each budget category. References count towards the page limit. The research proposal should include the following:

Aims and objectives:

- Clearly specify the objectives of the proposal; it should be indicated how and why the proposed work is important for the field, and what impact it will have if successful, such as how it may open up new research horizons or opportunities.
- Specify any particularly challenging or unconventional aspects of the proposal, including multi- or inter-disciplinary aspects.

Methodology:

- Describe the proposed methodology in detail, including as appropriate, key intermediate goals.
- Explain and justify the methodology in relation to the state-of -the-art, including any particularly novel or unconventional aspects addressing 'high-risk/high-gain' balance.
- Highlight any intermediate stages where results may require adjustments to the project planning.

CV – 2 pages max:

- The CV should include the standard academic and research record including current funding awards.
- Applicants should comment on any actual or apparent overlaps with current funding awards to demonstrate that, if successful, there will be no double funding in respect of the same activities.

Track Record

- Applicant(s)' research and other expertise relevant to the project proposal.
- Research achievements including current and previous research awards.
- Key Outputs including Publications (e.g. published reports, creation of data sets and databases, exhibitions, etc.)
- Evidence of previous evidence-based policy research.

Outputs and Impact

- Outline the potential outputs and impacts of the proposed research. Outputs are identified as the planned activities based on the allocation of resources. Outcomes are the anticipated short-term results of the research project and its outputs. Impact is defined as how research benefits society and may occur in the shorter or longer term. Please see The Campus Engage guide 'Engaged Research Planning for Impact', here:

https://www.campusengage.ie/wp-content/uploads/2022/03/Updated-Final-PBS10581-IUA-Engaged-Research-Planning-for-Impact-Framework-2022-Update_V5.pdf

- The potential impact of the proposed research project on the individual/team/research programme, including the potential for further research activity, the alignment with identified SDGs and the Institutional/organisational research and teaching strategy. The possible impact on the teaching programme, including courses taught and students supervised or the potential impact on the development of capability in the Host Organisation.
- Plans for dissemination and knowledge exchange activities. In particular, the direct outputs envisaged, evidence of collaboration and impact on policy in the relevant area.
- The potential broader societal impact of the proposed research.

***Detailed Project Description Upload**

***List of Research Projects which the Principal Investigator is currently involved in or has responsibility for (including details of the project title, the source of award, the funding amount and the award duration).**

300 words

***Has a Steering Group or Advisory Committee for this project been identified?**

Yes/No

If Yes - Please provide details; If no - Are there plans to develop a Steering Group or Advisory Committee? Please provide details.

300 words

***Research Schedule (including a detailed timetable for the project commencement, and a plan for the efficient management and reporting of the research project).**

500 words

You may upload a GANTT chart to illustrate the project timelines, milestones and deliverables. **The system will only accept a PDF file for upload.**

*** For 2B only: outline the role of the co-PI in the various stages of the project starting with initial design.**

200 words

Strand 2A and 2B only: The PI is required to upload a statement (1 page PDF) outlining their track record (if any) in collaborating with the co-PI, together with a case for why the two parties are a good fit for the proposed project.

Data Management Plan

500 words

Please provide details of the following:

- What standards will be applied?
- How will data be exploited and/or shared/made accessible for verification and reuse? If data cannot be made available, why?
- How will data be curated and preserved?
- If applicable, how do you plan to make the research data FAIR (findable, accessible, interoperable and reusable). Applicants should be cognisant of the General Data Protection Regulations (GDPR) and any other national guidelines that may be applicable in your jurisdiction. Funded proposals should meet the required standards in this regard.

Ethical Statement

Please read carefully the section on Research Ethics in the Terms and Conditions.

***Does the research proposal outlined in this submission require approval by the relevant University/Institutional Ethics committee?**

Yes/No

*** If funded, any ethical issues relating to your proposed research programme will be subject to the rules and regulations of your Irish Host organisation. You must agree to abide by these rules and regulations, including any full ethical review which it requests prior to embarking on your research programme.**

I Agree to abide by the ethical rules and regulations of my proposed Host Organisation

Project budget

Budget: Open budget

Advisory Note on Staff Costs and Staffing Requirements: Costs may include staff-replacement costs which facilitate participation in the project, but these must be clearly justified. All staff replacements ('buy-out' costs) must be accounted for according to approved Taighde Éireann - Research Ireland staff rates.

The recruitment of any staff to this project must be openly recruited through public advertisement. Staff must be recruited for the specific project and awarded topic only. The only exception to this is the STEM co-PI on strand 2A applications; due to being a named participant on the project, this post need not be advertised publicly.

Please consult the Call Document for the specific budget limits/requirements for each strand.

Eligible costs	Total Cost requested for the full duration of the award	Justification. Please provide itemised breakdown of costs and reason needed (justification fields cannot be left blank. Enter 'n/a' if necessary):
Personnel/Staff		
Collaboration:		

Up to a max. of 10% of total project costs on Strand 1M; Strand 2A and Strand 2B		
Dissemination and Knowledge Exchange		
Travel costs		
Consumables: Maximum €2,000 on Strand 2A and Strand 1M; Maximum €5,000 on Strand 2B		
Consultancy: Maximum €20,000 on Strand 1M; Maximum €10,000 on Strand 2A and 2B		
Publications and research outputs		
Access to Research Infrastructure		
Overheads		25% of direct costs excluding equipment
Equipment		
Total

Academic qualifications

Note: Examination results, qualification names and other information provided in this section must correspond exactly with that on relevant official transcripts. Successful applicants will be required to provide official transcripts/parchments before awards are confirmed. In case of discrepancies between results provided in the application form and those on official transcripts, offers of awards will be withdrawn.

If the language of a transcript/parchment is not English, the name of the degree and overall result if expressed verbally (such as “mention très honorable avec félicitations du jury” or “отлично/otlichno”) must be provided in the language of the transcript/parchment as well as in

English. It is not sufficient to provide only English translation/equivalent of the name of the degree or result.

<p>Doctoral Degree</p> <p>Or degree equivalent to the Doctoral Degree level 10 on the Irish National Framework of Qualifications NFQ, see The National Framework of Qualifications Quality and Qualifications Ireland (qqi.ie).</p>
*Qualification type and name
*Institution
*Country
*Supervisor
*Doctoral thesis title
<p>*Abstract</p> <p>300 words</p>
<p>Other Education</p> <p>Please provide any additional information relevant to your academic background which should include the name, location and dates for each relevant course listed. For major awards, also provide equivalency of the degree to the Irish National Framework of Qualifications.</p> <p>300 words</p>
<p>Research Achievements</p> <p>Please provide any additional information regarding your relevant research achievements since beginning a career as researcher (since you completed the degree that qualifies you to embark on doctoral studies in Ireland or in the country of the proposed secondment/placement).</p> <p>300 words</p>

Ethical Statement and Sex / Gender Dimension Statement

Ethics Issues Table

1. HUMAN EMBRYOS/FOETUSES

*Does your research involve Human Embryonic Stem Cells (hESCs)? Yes/No

*Does your research involve the use of human embryos? Yes/No

*Does your research involve the use of human foetal tissues/cells? Yes/No

2. HUMANS

*Does your research involve human participants? Yes/No

*Does your research involve physical interventions on the study participants? Yes/No

3. HUMAN CELLS/TISSUES

*Does your research involve human cells or tissues (other than from Human Embryos/Foetuses, i.e. section 1)? Yes/No

4. PERSONAL DATA

It should be noted that:

1. "Personal data" can be defined as identifiers: any information that could, in any way, lead to the specific identification of one unique person, such as name, social security numbers, date of births, address, mails IPs etc.
2. Any data you are using should be taken into account, regardless of the method by which they are/were collected: for example, through interviews, questionnaires, direct online retrieval etc.
3. Processing should be understood to not only include data usage, but also merging, transformation, transfer and, more generally, as all actions using data for research purposes.

*Does your research involve personal data collection and/or processing? Yes/No

*Does your research involve further processing of previously collected personal data (secondary use)? Yes/No

5. ANIMALS

*Does your research involve animals? Yes/No

6. THIRD COUNTRIES

*Does your research involve non-EU countries? Yes/No

*Do you plan to use local resources (e.g. animal and/or human tissue samples, genetic material, live animals, human remains, materials of historical value, endangered fauna or flora samples, etc.)? Yes/No

* Do you plan to import any material from non-EU countries into the EU? For data imports, please fill in also section 4. For imports concerning human cells or tissues, fill in also section 3. Yes/No

*Do you plan to import any material from the EU to non-EU countries? For data exports, please fill in also section 4. For exports concerning human cells or tissues, fill in also section 3. Yes/No

*If your research involves low and/or lower middle income countries, are benefits-sharing measures foreseen? Yes/No

*Could the situation in the country put the individuals taking part in the research at risk? Yes/No

7. ENVIRONMENTAL PROTECTION AND SAFETY

*Does your research involve the use of elements that may cause harm to the environment, to animals or plants? For research involving animal experiments, please fill in also section 5. Yes/No

*Does your research deal with endangered fauna and/or flora and/or protected areas? Yes/No

8. DUAL USE

*Does your research have the potential for military applications? Yes/No

9. MISUSE

*Does your research have the potential for malevolent/criminal/terrorist abuse? Yes/No

10. OTHER ETHICS ISSUES

*Are there any other ethics issues that should be taken into consideration? Yes/No

*Please provide a statement detailing the careful consideration you have given to the ethics issues identified as relevant to your proposed fellowship and how you plan to address these.

1000 words

Sex/Gender Statement

Note: Please read carefully Appendix 5 - Sex/Gender Dimension in Research in the Call Document for help in answering this question.

Does your proposed research programme involve any of the following?

1. Humans as the research focus.
2. Animals as the research focus.

3. Human samples and/or data.
4. Humans involved as consumers, users, patients, or in trials.
5. Research on animals, animal samples and/or data.
6. Research outputs with implications for end users or consumers.

If your proposed research programme involves one of the above, note that your proposed research may have a potential biological sex or social gender dimension. Yes/No

* If you have answered NO to the questions above, please explain why there is no potential biological sex and/or gender dimension to be considered in your proposed research. If you have answered YES to the questions above, indicate how potential biological sex and/or gender issues will be handled. In particular, you are asked to reference the points mentioned in the 'Checklist for sex/gender in research content' in the Call Document.

300 words

Applicant Declaration

* Would you like the Taighde Éireann - Research Ireland to make your application available to other Funding Agencies and/or Enterprise Partners for funding consideration?

*I hereby declare that I have read and accept the Applicant requirements as set out in the Call Document on the COALESCE funding page.

*I confirm that the information supplied in this application is correct.

Note: Should it become apparent that any of the information provided in the application is inaccurate or is not verifiable with appropriate documentation, it will result in the application automatically being deemed ineligible.

***Have you had an allegation of bullying and/or harassment upheld against you for which there is a current disciplinary warning or sanction in place?** Note, this section refers to institutional allegations in a current or former workplace. It does not refer to criminal proceedings. Do not answer 'yes' if you have had a criminal conviction for bullying and/or harassment. (yes/no)

*** I confirm that the information supplied in this application is correct and the research proposal is exclusively my own work:**
